

BP1
vitamin K, ascorbic acid, ascorbic acid derivatives, tocopherol and tocopherol derivatives and a mixture thereof; and a stabilizer compound comprising N-acetylcysteine.

- BP2
15. Compositions comprising from about one to about three oil-soluble oxygen-labile species and at least one stabilizer compound selected from the group consisting of thio-containing compounds wherein said compositions comprise at least one retinoid, at least one tocopherol and at least one ascorbic acid or their derivatives and said thio-containing compound is N-acetyl cysteine.

Kindly add the following claims:

- BP3
- BP4
- BP5
- BP6
17. A composition according to claim 7 comprising a retinoid and at least two oxygen-labile species selected from the group consisting of choleiferol, vitamin K, ascorbic acid, ascorbic acid derivatives, tocopherol and tocopherol derivatives.
18. A composition according to claim 7 wherein said composition further comprises a water-soluble oxygen-labile species selected from the group consisting of niacin, thiamine, riboflavin, folic acid, pyroxine, pantothenic acid, niacinamide, lipoic acid, dihydrolipoic acid, amino acids and their derivatives and mixtures thereof.
19. A composition according to claim 7 wherein said oxygen-labile species are a retinoid, a tocopherol and an ascorbic acid.
20. A composition according to claim 7 wherein said oxygen-labile species are a retinoid and an ascorbic acid.
21. A composition according to claim 7 wherein said composition further comprises a humectant, an antioxidant, a preservative, a fragrance, a surface active agent, a binder and a skin protectant agent.
22. A composition comprising from about 0.01 to about 10% by weight of the composition of a retinoid, from about 0.01 to about 10% by weight of a tocopherol and from about 0.01 to about 20% by weight of an ascorbic acid and from about 0.001 to about 5% of N-acetylcysteine.
23. A composition comprising from about 0.01 to about 5% by weight of the composition of ascorbic acid and from about 0.001 to about 0.1% by weight of N-acetylcysteine.
24. A composition comprising from about 0.01 to about 5% by weight of the composition of ascorbic acid, from about 0.01 to about 1% of tocopherol and from
